Introduction

HP provides a portfolio of professional-grade accessories that deliver an ideal mobile office designed to help you achieve your business goals, increase productivity and lower your costs. All HP accessories go through rigorous testing and are certified to work seamlessly with your HP Business Notebook. They are backed up by HP's world-class support.

HP notebook stands include a range of convenient solutions that easily connect to your HP Business Notebook. Create an ideal desktop computing environment using ergonomic stands that enable easy viewing in a space-saving design.

HP is committed to delivering the optimal mobile computing experience by offering industry-leading accessories for every mobile user, whether you are a frequent traveler or rarely leave your desk. Enjoy return on investment from these easy-to-use, easy-to-deploy and easy-to-manage expansion solutions.

Overview

HP Adjustable Notebook Stand

Turn your HP Business Notebook into a desktop solution supporting up to two displays (notebook display plus monitor or two external displays) or completely eliminate the external display by raising your computer screen to a comfortable level.

Decide what kind of desktop solution suits you best – no display or up to two displays with your HP Business Notebook. The adaptable design of the HP Adjustable Notebook Stand lets you connect the HP Docking Station, the HP Advanced Docking Station or the HP 2400/2500 Series Docking Station.

Key Benefits

- Raise your computer screen to an adjustable comfortable eye level.
- Use two displays at once to increase productivity – your notebook display, plus connect one external display via the VGA or DVI port on your docking station.
- Keep your desktop clutter-free even when connecting multiple devices with the simple cable management channels on the back of the stand.

HP Dual-Monitor Stand

The HP Dual-Monitor Stand allows you to use two monitors to maximize your productivity and optimizing efficiency. Either or both monitors can be rotated to landscape or portrait orientation, and the stand is height- and tilt- adjustable so you can view both screens at eye-level, letting you track multiple applications and information sources at the same time.

Key Benefits

- Supports two displays up to 24" in size for applications that are optimized by the use of two monitors. Great for companies with Industrial Design, Order Tracking, Financial Analysis or Direct Marketing departments.
- Accommodates the HP Basic Docking Station, the HP Advanced Docking Station, the HP 2008 Basic Docking Station and the HP 2008 Advanced Docking Station.
- Either or both monitors can be rotated to landscape or portrait orientation.
- Offers a height- and tilt-adjustable monitor solution while also providing cable management.

HP Monitor Stand

The HP Monitor Stand is a space-saving monitor stand letting you connect to the HP Docking Station, the HP Advanced Docking Station, or the HP 2400/2500 Series Docking Station.

- Compact design with support for up to 21 inch CRT monitor (up to 100 lbs).
- Convenient power button and light, AC power light, dock light and MultiBay II light (Advanced Docking Station only) on the stand replaces controls on the docking station.
- Open-sided design allows easy access to frequently used bays, slots and ports on the docking station.
- When used with the HP Docking Station, the sliding tray allows you to choose from four different settings to position your docking station and computer.

Overview

HP Basic Adjustable Notebook Stand

The HP Basic Adjustable Notebook Stand is a space-saving notebook stand that provides additional viewing angles when using the notebook as a display.

Key Benefits

- Raise your computer screen to an adjustable comfortable eye level.
- Use two displays at once to increase productivity – your notebook display, plus connect one external display via the VGA or DVI port on your notebook.
- Keep your desktop clutter-free even when connecting multiple devices with the simple cable management channels on the stand.
